

A premium quality instant dry gloss photo paper with a special micro-porous coating provides excellent ink absorption, large colour gamut and improved black definition.

Ideal for high quality photographic prints, posters, visual mock ups and client proofs

Achieve photo-realistic prints with impressive detail and quality with Xativa X-Press Gloss Pro Photo Paper. Thanks to a special ink absorption layer high amounts of ink can be layered onto the paper and dried instantly.

The special properties of this paper also enable you to achieve a large colour gamut and rich black density and water resistance when dry.

All specifications are correct at time of print and are subject to change without notice. E&OE
